

Project Profile

**Statistics:**

**GROSS FLOOR AREA**

2,788 sm (30,000 sf)

**CONSTRUCTION COST**

Total \$16,000,000

Mechanical \$3,500,000

**REFERENCE**

Diamond and Schmidt Architects

Mr. David Dow

403.862.8800

**PROJECT STATUS**

Completed 2007

**SALLY BORDEN – BANFF CENTRE  
BANFF, ALBERTA**

Nestled among the surrounding peaks of the Banff National Park, The Banff Centre is an internationally recognized arts, cultural, and educational institution and conference facility. Drawing inspiration from the Banff mountain culture, this two storey addition to the Sally Borden Building incorporates numerous sustainable and energy efficient strategies.

High efficiency boilers, demand controlled ventilation, and a variable speed kitchen exhaust system enabled the facility to qualify for the Commercial Building Incentive Program (CBIP) offered by Natural Resources Canada (NRCan) by exceeding the MNECB predicted annual building operating costs by approximately 38% for the new addition. CBIP award amount approximate \$53,000.
